	Data	Prediccion	Sentimiento
1	ENDGAME is a movie that i want to see sense the mcu inception it hits the jackpot in a way that i haven't even imagined and it give's everything a moviegoer and a comic lover what they want and love this by far my favorite mcu movie and of my favorite movies off all time in generations	positive	0.9393
2	Best movie ever. The time travel alter timeline and last fight was best. Whole movie was best.	positive	0.9001
3	When I saw the first Iron Man back in 2008 I was amazed by the movie but I wouldn't ever imagine that this movie would be the kickoff to the creation of a huge and dense universe of MCU compelling near 20 movies that brought to me a lot of entertainment and fun along all those 11 years.	neutral	0.9442
4	I really hate movies that establish clear rules for what is possible then just ignore them. It's also pretty clear that the ending had to be heavily edited to cut the runtime down to 3 hours.	negative	-0.0498
5	I thought that this film does not deserve half the praise it is getting. There are so many better films that don't have such a large budget like marvel and are given half the credit for a film that is so much better. In addition to this the film is massively flawed and should have left the concept of time travel alone as it only reaches paradox	neutral	0.9399
6	This is a review	positive	0.0
7	It feels and watches like a seasin finale of a series. You don't expect it to be good. You expect certain thing to happen. They happen. And it's not good. This picture is about 4 of the avengers. The rest is not important and non-existent. Tip for Disney: when you hype different fake plots to keep the real one secret try to make this real one better then the fakes...	neutral	0.8228
8	This was atrocious. Death has no meaning in this movie because the power of the gauntlet looms on your mind throughout the whole thing and then the movie pulls a random "gotcha" and jks on you your hero is dead.	neutral	-0.8126
9	As always great action and visuals terrible plot and storytelling. I'm really disappointed they went the time travel route it's one of the cheapest storytelling devices especially when it's used in a completely unoriginal way like this	positive	0.0953
