## Important information.

Please read the following information carefully. It is important for the correct choice of courses.

Please use this document as a guideline. This compilation of courses offered at the Universidad Europea de Madrid (UEM) is for guidance only and is subject to change for academic and/or planning reasons. Availability of places is limited and, although rare, you may be asked to change your selection. Having a course on your Learning Agreement does not guarantee a place on the course.

UEM offers exchange students a wide range of courses. These subjects are offered in blocks, which correspond to the courses offered in a semester in one of our bachelor's Degrees. **The student must select one of these blocks in its entirety, and it is not possible to mix courses from different blocks.** Students may only select blocks of courses offered in the School for which they have been nominated.

- School of Architecture, Engineering and Design
- Creative Campus (City Center)
- School of Biomedical and Health Sciences
- School of Economics, Business Administration and Communication
- School of Law and Education
- School of Medicine, Health and Sport

Where a qualification is taught in English and Spanish, **students must choose the language of instruction by selecting the block of courses taught in the language of their choice.** It will not be possible to select subjects in both languages.

UEM encourages you to take courses taught in Spanish, not only because there is more on offer, but as a central part of your learning experience in Spain.

Incoming exchange students can complete a maximum of 30 ECTS per semester, corresponding to a block of courses.

As information on the availability of courses and their nature may change, incoming exchange students are responsible for ensuring that the courses they finally register for meet their expectations in terms of content, ECTS and timetable when they start their studies at UEM.

## School of Economics, Business Studies and Communication

# Bachelor's Degree in Business Administration and Management

Courses taught in English

Faculty of Economics, Business and Communication.

	Programme taught in English	Students must choose a complete block of courses. It is not possible to mix subjects from different years.
