FREE SUMMARY OF THE CURRICULUM VITAE

Among the most relevant merits of my CV, I would like to highlight:

- My academic training as a Law Graduate, specializing in Business, allows me to have a vision of the company from a legal and international perspective. The latter is reinforced by completing a Master's in Business Administration at the Instituto de la Empresa (IE) and a Master's in International Trade (UV).

- I have professional experience of more than 20 years in the internationalization of Spanish companies abroad, especially in MENA and Latin American countries. This experience allows me to know and guide teaching to the needs of companies, especially in the areas of internationalization and marketing and international strategy.

- My teaching experience begins more than 10 years ago, and without interruption, I have combined my professional activity. The areas in which I have taught are within the Social Sciences: Administration and Business, International Relations and Law at the Catholic University and the European University of Valencia. I have mostly taught in English.

- My research experience: Although it is limited since it begins simultaneously with the completion of my thesis: The “joint venture” as a means of entering closed markets: its study in the Algerian context. In which part of my research areas are concentrated: internationalization, international trade, marketing, strategy and international politics.
