5. DEVELOPMENT OF THE PROCESS

Given the diversity of the University's educational offer and its characteristics, we collaborate with external experts in specific fields of knowledge in order to provide teaching.

The Master's Degree Directors of each Centre create the Timelines for the teaching of the Degrees to be implemented, providing this information to both the Planning Department and the Human Resources Department, for the management of teaching resources and materials as indicated in the PGC 4.2 Teaching Development procedure, as well as in the procedures for the management and allocation of material resources, PGC 10.1 and PGC 10.2. of the UEC.

When this process takes place with an established Degree, the Planning Department works with the information from previous years, making the necessary changes indicated by the Centre.

The HR Department, once it has received the information on these collaborations, generates the contractual documentation necessary for the correct development of this process in the HR IT tool.
