What makes us different?

International and specialised networking

An international programme that will allow you to foster relationships and contact with top international professions and students of multiple nationalities. This educational commitment will exponentially improve the scope and professional possibilities of our students.

Professional staff in the sector

The faculty is made up of active professionals from the most recognised companies in the sector, the same ones who will become a very valuable part of the students' network of contacts.

Invitation to the White Week Online

This event organised by the School is exclusively for our students. A week of unique lectures with leading sports industry professionals, elite athletes, and Real Madrid C. F. executives.

Madrid, revolutionizing the sports industry

Discover the most important aspects of the club. You will have the opportunity to get to know the Real Madrid Sports City from the inside, you will have access to the Real Madrid C. F. training facilities, and you will visit the Bernabéu Stadium. You will also visit the city's main international sports entities and meet their executive managers.

Health and Sports in Italy

During this trip you will get to know new management models and trends in the sports and health field visiting a leading research university, Università degli Studi di Roma 'Foro Itálico', research centres or medical centres. You will have the opportunity to do networking with professionals from institutions, such as Rome Olympic Stadium, Foro Itálico Tennis, Swimming Olympic Center or Nicola Pietrangeli Stadium.

Online Methodology

The online methodology focuses on the learner and on guaranteeing effective and personalised learning, always accompanying them so that they can achieve their objectives. Technology and innovation allow us to offer a dynamic and motivating environment, with the flexibility you need and the tools that ensure quality training. During the learning process, the student will have several resources such as:

- **Live virtual classes** that can be connected to from any from any place and device. These sessions are also recorded in case the student cannot attend or wants to watch them again. The exams are online, so you don't have to travel at any time.
- **You will have the support of our expert faculty** who will facilitate the learning process, as well as a tutor who will guide and help students to achieve their goals.
- **The student will obtain comprehensive training** based learning through real cases combined with theoretical and theoretical and practical learning.

International School

The history of Real Madrid is an example of **vision, dedication and a pioneering spirit** that has inspired generations throughout the years. Its legend in the world of football has forged the most prestigious and respected sports brand on every continent. Real Madrid is a multicultural club open to all and a leader in the global sports industry.

In 2006, the club started its joint venture with Universidad Europea, sharing a great international vocation which is reflected every day on the campus.

Nowadays, Escuela Universitaria Real Madrid Universidad Europea offers 40 graduate programmes with the mission of training the future leaders of the sports industry. Its academic quality has made the School become a key part

in how the sports sector has modernised over recent years, and there are more than 15.000 alumni working worldwide in the sector.

This year we'll receive around 1.000 students, with 80% of them coming from outside of Spain. The multicultural profile of the teaching staff and students, coming from more than 80 different nationalities, adds a unique value to our graduates.

Our open and multidisciplinary approach is evidenced by the experiences and opportunities offered by the School, such as the chance to study different management models from a range of sports, including getting to know the key

players within each sport and discipline.

We'll visit some worldwide renowned sports facilities, the headquarters of regulatory institutions in sports, and key players within the sports industry. The visits will include several work sessions with leading professionals, allowing students the chance to exchange opinions and deep dive in the 'know-how' of each organisation.

A unique chance to broaden your horizons and open your mind.

#GoBeyond

Our Students

Private Online Master's Degree in High Performance Conditioning. Sport Scientist

Private Master's Degree in High Performance Conditioning. Sport Scientist is aimed at students coming from different areas of physical activity or health who wish to specialise in sports performance.

For admission to the Master in High Performance online, **the following is required:**

- The candidate must have training in physical activity or physical education.
- Candidates without previous training in this field will be reviewed and should have previous demonstrable experience in this field.

Academic Curricula

Private Master's Degree in High Performance Conditioning. Sport Scientist

Module I: Generalities and context of high-performance sport (6 ECTS)

- Context, functions, and competences. Professional environment.
- The reality of the high-performance coach 1.
- The reality of the high-performance coach 2.
- Fundamentals and principles of high-performance sports training 1.
- Fundamentals and principles of high-performance sports training 2.
- Specificity of high-performance sports training.

Module II: The knowledge base in high performance sport (6 ECTS)

- Exercise physiology. Concepts and applications to high performance sports.
- Strength training. Concepts and applications to high performance sports.
- Speed training. Concepts and applications to high performance sports.
- Endurance training. Concepts and applications to high performance sports.
- Planning, periodisation, and programming of training in individual sports.
- Planning, periodisation, and programming of training in team sports.

A unique Postgraduate School

Real Madrid Graduate School Universidad Europea was founded in 2006 with the aim of training the sports industry's future leading professionals.

The alliance between Real Madrid – the most successful sports club in history – and Universidad Europea, a leading holistic education institution in Spain, aims to boost professional development and modernisation in the sector through university education.

The graduate school's academic quality and strict standards are demonstrated by the 15,000 students that have already graduated over the past 17 years, many of whom are now working as successful professionals in different areas of the sports industry today.

In the image, our General Director, Mr. Emilio Butragueño, receives the National Sports Award Stadium Cup from his Majesty Felipe VI of Spain and Queen Letizia, granted to Real Madrid Graduate School - Universidad Europea for its commitment in “promoting education, research and professionalisation in all sports related areas.”

Admissions process

The admissions process for **Escuela Universitaria Real Madrid Universidad Europea** programmes runs throughout the whole year, although enrolment in all graduate programmes depends on the availability of places.

For personalised guidance, you can contact us via phone: **(+34) 918 340 912** or e-mail: **facultad.deportesonline@universidadeuropea.es** to receive advice from the Graduate Degree Admissions staff.

Once candidates have received guidance and have provided the necessary documentation, the Graduate Degree Admissions staff will send them a date for taking the **entrance exams** for the programme they are interested in, and for a **personal interview** with the Programme Director or a member of the Admissions Committee.

-  **Personalised guidance**
-  **Sending in the application and documentation**
-  **Assessment of the profile and interview**
-  **Confirmation of admission**
-  **Formal reservation of a place and enrolment**
