We have obtained the maximum 5/5 star rating in online teaching from QS Stars, the international quality rating body.

100%
Digital

Virtual Campus with a practical and simple environment that will allow you to combine your studies with your professional and personal life.

WHAT IS OUR
ONLINE
METHODOLOGY?

SPANISH LANGUAGE COURSE

The course consists of two parts:

1. Language course: We will give you access to the virtual classroom, where you will find the necessary material adapted to your level and oriented to improve your grammar skills.

To make the most of this material, you will have at your disposal all downloadable teaching material (both video and pdf) from day one, making your learning experience more complete and enriching.

At the end of each unit you must take a test to check your knowledge and complete the course.

2. 24h conversation platform with unlimited sessions: You will have access to a 24h conversation platform where you can book as many group sessions as you need. There are no limits. The dynamic of these sessions are as follows: the teacher will propose a topic and act as a guide for the conversation. The students will participate by giving their opinion while they practice their conversation and listening comprehension.

During the course you will be able to join these group conversation sessions for an unlimited period of time. You will only have to book the day and time on the platform. You decide how many sessions you want to complete and how you want to organize them according to your schedule.

Students who attend these sessions come from countries all over the world, so you can practice your Spanish conversation in an international environment and discover the different accents of other places and cultures. All the content will be available on the virtual platform for 6 months.

*This course does not validate subjects from other programs.

IMPORTANT INFORMATION:

- Upon successful completion of the various self-assessment tests that make up the course, you will be able to obtain a certificate issued by the Universidad Europea.
- UEM is not an official examination center, so if your aim is to obtain an official language level certificate, your tutor will be able to help you follow the steps and get the information you need.
